REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:
2. Regarding Claim 25, the prior Office action shows that the combination of GB 2,357,409 to Griffiths and US 2003/0009247 A1 to Wiser et al. makes obvious all elements except computer readable code for displaying a plurality of presets, each displayed as thumbnail composite curve graphically indicating the equalization provides by the preset, as added to the claim in the amendment filed on 6 June 2006. Griffiths further discloses using the mouse to indicate which of a plurality of filter characteristics stored in a memory (i.e., presets) is to be made the active response. Because a mouse is used to select from displayed options, Griffiths inherently teaches displaying a plurality of presets that provide equalization. However Griffiths is silent as to the details of the presentation of the presets. Because the prior art does not disclose or fairly suggest presentation of presets as thumbnail composite curves that graphically indicate the equalization provided by the preset, the claim is allowable.
3. Independent claims 3, 9, 10 and 13 contain limitations similar to those of Claim 25 and are allowable for the same reasons.
4. Claims 4 through 6, 19 through 24 and 26 through 28 are allowable due to dependence from their respective base claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
